We are dedicated to maintaining the highest standards of quality and professionalism in our industry. As we continue to grow, we are seeking candidates who share our commitment to excellence to join our team as Materials Testing Technicians.

**Position Overview:** We are looking for individuals with construction soils testing experience to perform onsite field and laboratory inspections, ensuring compliance with supplier and owner specifications. The ideal candidate will have a strong work ethic, a professional attitude, and a willingness to learn and grow in a fast-paced environment.

## Duties:

- Conduct onsite field inspections and laboratory testing to verify compliance with specifications.
- Document all testing activities and construction observations in a timely manner.
- Obtain and maintain certifications for various soil, aggregate, concrete, and asphalt test methods.
- Possess knowledge of general construction methodology, including asphalt concrete paving operations, concrete batching and placement operations, and general building construction.
- Additional certifications such as ACI, NICET, ICC, QSP are a plus.
- Ability to lift and move up to 75 lbs regularly.
- Hold a valid driver's license and be insurable under the company vehicle policy.

## Benefits:

- Competitive compensation package.
- Opportunities for professional development and advancement.

**Additional Information:** The successful candidate will have the opportunity to expand their skills and certifications through company-provided training and mentoring. This position offers the chance to be part of a highly successful company with a steady and growing project list. CGi is an Equal Opportunity Employer and offers excellent benefits to our full-time employees. Join our team at CGi Technical Services, Inc. and contribute to our mission of excellence in geotechnical engineering and materials testing. Apply today!

**Wage Range:** \$20.00/hr - \$82.03/hr (hourly wages are based on experience and project type)

**Note:** All applicants must pass a pre-employment drug test upon hire.

**How to Apply:** To apply for this position, please submit your completed application along with your resume to [sales@currygroup.com](mailto:sales@currygroup.com).
